EDUCATION

University of Central Florida

Orlando, FL

B.S. in Computer Science, Dean's List, Bright Futures Florida Academic Scholarship Recipient

Expected May 2027

EXPERIENCE

Wells Fargo

Charlotte, NC

Sophomore SWE Intern — Wealth & Investment Management Technology

June 2025 – July 2025

- Gained exposure to the **enterprise-wide migration** from **Pivotal Cloud Foundry** to **Red Hat OpenShift Container Platform**, learning about containerization and CI/CD implications.
- Used **Postman** to analyze RESTful endpoints and validate annuity-related workflows across distributed systems.
- Participated in Agile ceremonies, including stand-ups and sprint reviews, gaining hands-on experience with **Scrum development methodology**.

The Region

Jacksonville, FL

Software Developer Apprentice

May 2021 – July 2022

- Aided development of Java plugins using Spigot API and Bungee API for a video game server peaking at **750 concurrent players**.
- Architected and implemented performance optimizations such as asynchronous task scheduling, and chunk-loading tweaks, that **cut average tick times by 30%** and **reduced server downtime by 40%**.
- Led lifecycle from **feature planning** to **deployment and live support**, improving user experience and server stability.

PROJECTS

Paracosm | Unity, OpenAI Whisper, React, C#, Git, MetaQuest, Submitted to Bitcamp 2025

Apr 2025

- **Engineered a Perlin-noise terrain algorithm** to produce 10+ distinct biomes in real time at 60 FPS within a Unity WebGL embed.
- Integrated OpenAI Whisper for voice-driven commands, achieving **90% recognition accuracy**.
- Designed **VR integration with Meta Quest**, outlining hand-tracking controls to enable immersive exploration of procedurally generated worlds.

HurricaneGIS | Node.js, MongoDB, React, Mongoose, Submitted to Knight Hacks VII

Oct 2024

- Created a real-time GIS tool to map and track hurricane hazards using **MongoDB** for efficient data storage and **Google Maps API** for dynamic hazard visualization.
- **Implemented user authentication** with **Mongoose**, enabling users to register, log in, and submit markers for hazards like flooding, power line damage, and debris, ensuring data accuracy and accessibility

LEADERSHIP & ACTIVITIES

Knight Hacks

Orlando, FL

Director of Outreach

Dec 2024 – Present

- Designed and implemented outreach campaigns across UCF's CS and CE departments, contributing to a **20% increase in new member signups**.
- Created a **repeatable outreach playbook** for future directors to manage outreach responsibilities.

Theta Chi Fraternity

Orlando, FL

Risk Manager, Scholarship Chair, Secretary, Resolute Man Award

Nov 2023 – Present

- Implemented strategies to secure scholarship opportunities for members, **gathering over \$11,000** in scholarships to members
- Received the nationally competitive **Victor Simon Memorial Scholarship**, awarded to undergraduate engineering majors in Theta Chi for academic excellence, leadership, and professional promise in their field.

TECHNICAL SKILLS

Languages: C#, C, Java, Python, JavaScript, HTML, CSS

Tools/Technologies: IntelliJ, Eclipse, Git, Linux, VSCode, MongoDB, Node.js, React, Unity, Gradle, CI/CD, Postman, Spring Boot, Agile/Scrum
